WHAT'S IN A NAME?

Freeville: Years ago, when I went to school in England, a classmate was named Margaret, but she was called Peggy. Another girl whose name was Mary was called Polly. Is there a reason for this?—W. B.

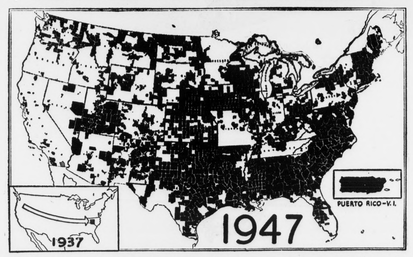
Answer: Many Christian names have strange diminutives such as these. Dolly is the diminutive of Dorothy; Hal is the diminutive of Henry; Bill is the diminutive of William; Jack is the diminutive of John; Gill, or Jill is the diminutive of Juliana, etc. How they came about, though, is now uncertain.

* * *

Hollywood: All right, so the name of L. A. is El Pueblo de Nuestra Senora la Reina de los Angeles de la Porciuncula. All right, so "Porciuncula" means "little portion." Why don't you tell us how to pronounce it?—J. J.

Answer: Accent the third syllable which has the sound of "yoon" preceded by the sound of "s," thus: por-SYOON-koo-lah; almost: por-see-OON-koo-lah.

SOIL CONSERVATION DISTRICTS BIRTHDAY



On the 10th anniversary of the first farmer-voted and farmer-managed soil conservation district—organized Aug. 4, 1937—there were a billion acres and 4¼ million United States farms in 1,900 districts. The first district established under state soil conservation district enabling law was the Brown Creek District in Anson County, North Carolina (Inset).

Uncle Sam Says

Did you ever can a United States Savings Bond? Don't answer "no" so quickly because that's what millions of wise Americans are doing now. By buying bonds regularly through the Payroll Savings Plan where they work or the Bond-a-Month Plan where they bank, they are preserving income for future retirement. Savings Bonds grow in nutrition value to you and your family through the passage of time. In 10 years they will produce $4 in goodness for every $3 you store away today. Yes sir, the best canning you can do now is the canning of income in the form of Savings Bonds.

He was arrested for driving his 1911 Peerless 40 miles an hour in a 30-mile zone.

Stoves Spouting Water Make Housewives Gasp

DERBY, CONN. — Startled housewives rubbed their eyes disbelievingly and thought they were seeing things.

They felt better later when officials explained that a heavy road building machine had mashed two pipes together.

That's why water was spouting from gas stoves.

Bogus Danish Lieutenant Really Is a Jobless Girl

COPENHAGEN, DENMARK. — The average woman's suppressed desire to boss a regiment was gratified for a 22-year-old Danish housemaid.

She turned up suddenly at the Holback garrison, near Copenhagen, in the uniform of a lieutenant, but with skirts instead of trousers.

The "lieutenant" began her career with a rigid inspection of the soldiers' meals, the kitchens and the food storerooms, keeping the soldiers jumping with her sharp commands.

Her army service came to an end when a captain summoned police who arrested the girl. She confessed she was out of work and decided to fulfill her desire by the impersonation, purchasing a uniform in a Copenhagen store.
